50X1-HUM

1. In the Ministries of the various Industries a big drive is in progress to keep secret all information relating to industry. This started some three to four months ago and, in particular, was observed prior to the Poznan International Fair. A few days before the opening, orders were issued to withdraw catalogs, graphs, and data published on the exhibits. All factory inscriptions and labels on machinery, engines, motors, machine-tools, etc. on display at the Fair were removed or covered with paint.
2. It was observed that during the changes made, the names were generally replaced by numbers.
